:: DISORIC ::

Since 1985 CAEL distributes components and equipment for industrial automation. The customer base mainly consists of MANUFACTURERS, MANTEINERS, CONTROL ELECTRIC CABINETS BUILDERS and SYSTEM INTEGRATORS and the products are reliable and technically advanced on a high level. The experience achieved during the years makes CAEL capable of offering a large range of different items, all of highest quality and technically advanced, able to satisfy every possible necessity or request of the customers.

CAEL SERVICE srl was established in 2001 as an answer to the increasing requests and requirements of the customers of CAEL, regarding assistance and technical guiding to the use of the products. The elevated technical level of the products that CAEL offers has the advantage of innovative, flexible and functional use, but on the other hand they require an elevated service and assistance before and after the purchase, aimed at the correct and simplified use of the equipment.

The highly qualified staff of CAEL SERVICE has the competence and experience to "teach" the customers of the principals of the functions, utility procedures, applicated software, with the aim that they might be able to transmit the knowledge and information to their own final customers.

CAEL nel 2008 sigla un accordo per la distribuzione in esclusiva per l'Italia dei prodotti dell'azienda tedesca Di-Soric, azienda specializzata nella produzione di sensori da oltre 20 anni, che presenta nel suo catalogo una vasta gamma di sensori per applicazioni estreme fuori dal comune. La gamma Di-Soric comprende una serie di prodotti per il rilevamento ottico, a infrarossi, laser e a ultrasuoni, in particolare sensori a forcina e quadrati, lettori di etichette anche metalliche, sensori ad anello, forcelle laser capaci di rilevare spessori più piccoli di un capello, nonché fotocellule a sbarramento. Ulteriori informazioni le potete già trovare all'indirizzo www.disoric.it. Per ogni esigenza potete contattare il nostro ufficio commerciale.
